## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 5-16 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The reference (s) of record do not teach or suggest, either singularly or in combination at least the limitation of "the protective layer being in contact with the intermediate layer" for claim 5, "the protective layer being substantially present between the masking layer and the intermediate layer" for claim 9.

The closest prior art (U.S. patent No. 7,176,582), which is a common assignee with the instant application, shows, for instance, in figure 4 the protective layer (17) is in contact with the contact pads (13) but not in contact with the intermediate layer (12) as now recited in amended claim 5, and further there is no motivation to modify this prior art to have the protective layer in contact with the intermediate layer because in doing so would require part of the contact pads (13) is removed and the protective layer would fill in this removed portion of the contact pads, which results in the reduction of the adhesion between layer (12) and layer (13), against the teaching, of the prior art. See figure 5 and col. 5, lines 47-55. Further, the prior art shows in figure 4 the contact pads (13) has a main layer and a masking layer (171) but clearly this masking layer is not having a larger surface area than the main layer of the contact pads. Further, prior art shows in figure 4 the protective layer (17) NOT being substantially present between the

masking layer (171) and the intermediate layer (12) because it appears that layer (171) is formed within the protective layer (17).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
